Course Overview

This course will provide the student with the knowledge and practical experience for estimating, project control, and preparation of contract documentation. Estimators in the electrical industry are highly sought after persons with good prospects of employment.

Course Requirements

For entry to this module a background in the Electrical Industry is preferable although not mandatory.

Course Content

- Interpret project drawings, symbols, specifications and other associated documentation
- Analyse contractual obligations and the significance of various contractual documents
- Prepare estimates, tender submissions and quotations
- Prepare a project plan for a diverse range of given projects

Duration

Two Saturdays

Certification

Upon successful module completion students are provided with a Statement of Attainment.

Skills Recognition

Our skills recognition process benefits students, who have achieved prior training skills or knowledge and applies to Skills Recognition, Recognition of Prior Learning (RPL), Credit Transfer, Advanced Study or Exemption.

If you believe you are entitled to any of the abovementioned we encourage you to fill out the Application Form for Skills Recognition, which is available from our administration team. Your application will be assessed on an individual basis.

Examination Re-sit Policy

Where students are required to re-sit an examination, the first re-submission is free. A \$30.00 fee applies for a second re-submission. Should subsequent examination re-sits be required a \$150.00 fee applies for each examination.

Course Fees

Subsidised course fees may be available to persons currently working in the building and construction industry or unemployed persons who have worked in that trade in the previous 6 months.

The fee subsidy does not apply to persons working in the security and mining industries and Government employees.

In addition to course fees students may be required to provide some course reference books and resource materials.
