Connect Your Mind

09/07/2010

Course Overview

The Cords & Plugs course provides persons with the training, skills and knowledge required to fit low voltage plug tops and assemble extension leads (up to 1000 volts AC). The course is structured to include both theoretical and practical training. The College's training facilities allow for skills to be practiced in a simulated workplace environment. This course is designed for those persons who need to perform electrical work that is associated with low voltage plugs and cords.

Course Entry Requirements

There are no Entry Requirements for this course. This course is ideally suited to the person wishing to fit low voltage plugs tops or build extension leads and wishes to be trained how to perform the task safely. The electrical legislation states that persons are able to do this type of work without a licence as long as they are competent to do so. This course provides that competency.

Course Content

Persons completing this course will be provided with knowledge and skills in:

- Select flexible cords and plugs to suit given applications
- Determine that an appliance is safe to connect to the supply
- Connect flexible cords and plugs to multiphase appliances
- Determine that a flexible cord and plug is safe and is connected correctly
- Test a multiphase socket outlet to determine that supply is available

Course Duration

8 hours

Skills Recognition

Our mutual recognition process benefits students who have achieved prior training skills or knowledge and applies to Skills Recognition, Recognition of Prior Learning (RPL), Credit Transfer, Advanced Study or Exemption.

If you believe you are entitled to any of the above-mentioned we encourage you to fill out the Application Form for Mutual Recognition, which is available from our administration team. Your application will be assessed on an individual basis.
