Connect Your Mind

Course Overview

This course has been developed at the request of industry to address a problem for both management and workers alike. It is a commonly known fact that a high percentage of electrical accidents in industry involve persons working in or in close proximity to an electrical switchboard. Often the worker on hand at the time of the accident is not trained in the rescue process involving someone in contact with electrical conductors. This course endeavours to address that problem.

Course Content

This course introduces the lay person to basic electrical safety and life support. It examines the principles of working safely in confined spaces, hazard identification, effects of electric shock, first aid for persons suffering from electrocution, rescue and resuscitation. It also introduces person to a Low Voltage Switchboard Rescue Kit and examines its use in an emergency.

Course Delivery

The Low Voltage Switchboard Rescue course is delivered by instructors experienced in the procedures to follow where someone has received an electric shock. It will provide students with the skills and confidence to act quickly and correctly in a potentially life threatening situation.

Course Duration

4 hours

Certification

A Certificate of Completion will issued on successful completion of the course.

Course Fees

\$135.00

How to Enrol

Simply complete the course registration form and return it to the CET together with your payment.
