

UEE22011

Certificate II in Electrotechnology (Career Start) Electrotechnology Pre-apprenticeship

OVERVIEW

This qualification is designed to provide participants with industry specific training to gain skills, knowledge and behaviours to enable transition into an apprenticeship in the Electrotechnology Industry.

The nationally accredited qualification covers competencies fulfilling the requirements of a work entry program and provides grounding in safety, opportunity to develop high level individual and team communication skills and the undertaking of work placement.

CONTENT

This course has 6 core, 7 elective and 4 work placement units of competency - visit cet.asn.au to view the unit details.

REQUIREMENTS

This qualification is delivered under pre-apprenticeship arrangements.

All applicants are required to undertake a literacy and numeracy pre-selection test administered by the College. The test is of a Year 11-12 level and is

specific to transposition of formula, trigonometric ratio and algebra. Candidates who have not yet completed year 10 studies are welcome to sit the pre-selection test.

Applicants meeting the course requirements will be invited to attend an interview at the College, during which, suitability for course enrolment will be assessed.

DURATION

16 weeks full time.
