

Restricted Electrical Licence

OVERVIEW

This nationally accredited course is designed for those persons who regularly need to perform electrical work that is associated with a primary work function or activity.

The course provides the knowledge, skills and training required to apply for a Restricted Electrical Licence. This full time course is structured to include both theoretical and practical training. The College's training facilities allow for skills to be practiced in a simulated workplace environment.

REQUIREMENTS

Persons wishing to obtain a Restricted Electrical Licence must contact Building and Energy prior to course enrolment to confirm and obtain approval for licence application and training requirements.

Please provide a copy of your Building and Energy approval letter upon registration.

CONTENT

- UEECD0007 Apply work health and safety regulations, codes and practices in the workplace
- UEERL0004 Disconnect - reconnect electrical equipment connected to low voltage (LV) installation wiring
- UEERL0005 Locate and rectify faults in low voltage (LV) electrical equipment using set procedures.

Students are required to return to the college for their Final Assessment after completion of on the job training.

DURATION

3 days full time and 1 hour Final Assessment.

PRICE

Course fee	\$980
Subsidised fee	\$480
Final Assessment	\$250
