

CET GENERAL COURSE

Restricted Electrical Licence

OVERVIEW

This nationally accredited course is designed for those persons who regularly need to perform electrical work that is associated with a primary work function or activity.

The course provides the knowledge, skills and training required to apply for a Restricted Electrical Licence. This full time course is structured to include both theoretical and practical training. The College's training facilities allow for skills to be practiced in a simulated workplace environment.

REQUIREMENTS

Persons wishing to obtain a Restricted Electrical Licence must contact Building and Energy prior to course enrolment to confirm and obtain approval for licence application and training requirements. Please provide a copy of your Building and Energy approval letter upon registration.

CONTENT

- UEECD0007** Apply work health and safety regulations, codes and practices in the workplace
- UEERL0004** Disconnect - reconnect electrical equipment connected to low voltage (LV) installation wiring
- UEECD0005** Locate and rectify faults in low voltage (LV) electrical equipment using set procedures.

Students are required to return to the college for their Verification of Competency after completion of on the job training.

DURATION

3 days full time and 1 hour Verification of Competency.

PRICE

Course fee	\$1,200
Subsidised fee	\$840
Verification of Competency	\$250

CET benefits from the Construction Training Fund (CTF) grant program that reduces costs incurred in employment and training of apprentices in the construction industry
