

UEE40420 Certificate IV in Electrical Instrumentation

OVERVIEW

This nationally accredited qualification provides licenced electricians with the training, skills and knowledge required for the functional operation, calibration and fault finding of basic industrial instrumentation and electrical equipment.

It also provides skill sets in working with pressure, level, temperature, and flow and their application to analytical instruments for process and control.

REQUIREMENTS

UEE30820 Certificate III in Electrotechnology
Electrician
or
current WA 'Unrestricted Electricians Licence'
or

its equivalent issued in an Australian state or territory.
