

Checking and Testing an Electrical Installation

OVERVIEW

This non-accredited course provides licenced electricians, final year apprentice electrical mechanics and electrical fitters with the training, skills and knowledge to visually inspect and test a low voltage electrical installation in compliance with the requirements of AS/NZS 3000.

REQUIREMENTS

Current WA Unrestricted Electrician's or Training Licence or equivalent issued in an Australian State or Territory.

CONTENT

The course covers the application of AS/NZS 3017 and the common test methods that are required to test a low voltage electrical installation, fault identification and documenting test results.

DURATION

1 day full time.
