

Stand-Alone Power Systems - Design and Installation

Clean Energy Council Accreditation

OVERVIEW

This course delivers the requisite training in the design and installation of stand-alone power systems required for Clean Energy Council accreditation. It encompasses knowledge of renewable energy sources, primarily focusing on photovoltaic systems. The course provides knowledge and practical skills in design, installation, fault-finding and repair of stand-alone power systems.

REQUIREMENTS

Current WA Unrestricted Electrician's Licence or equivalent issued in an Australian State or Territory.

DURATION

8 days full time.

CONTENT

Units of competency:

- UEENEEK123A Carry out basic repairs to renewable energy apparatus
- UEENEEK125A Solve basic problems in photovoltaic energy apparatus and systems
- UEENEEK128A Solve problems in stand-alone renewable energy systems
- UEENEEK134A Install ELV stand-alone photovoltaic power systems
- UEENEEK139A Design stand-alone renewable energy (RE) systems

PRICE

Course fee	\$2,000
NECA Member fee	\$1,900

Split-payment options are available for this course. Visit cet.asn.au for further details.
